

LAYUP2

High precision 4-CCD-Camera optical registration and layup system including stack fixation by Riveting, RivetBonding or Bonding

NEW
RivetBonding
and/or
Bonding

Swiss Quality

- 4 CCD-Optical optical registration and alignment
- Double template-shuttle system
- Alignment accuracy $\pm 5 \mu\text{m}$
- Production capacity up to 100ML/hour
- Panel size up to 750 x 610mm
- Riveting, Rivetbonding and/or Bonding
- Statistical process control
- The line consists of:
 - Preparation and Loading
 - Lay-up with 4-CCD-Camera Alignment
 - Transfer shuttle for lay-up
 - Riveting, Rivetbonding and/or Bonding
 - Suitable for all lamination techniques
 - Flattening device for Riveting
